

We have been learning to complete short activities independently based on our individual targets. Some of us are learning letter sounds and practising blending and reading. Some of us are learning to write our names or count. We use the IWB and Ipad programs to help us learn. We love to share, take turns and explore the different sorting, matching, letter and number games. We use PECs as a form of communication and at snack time are becoming really good at using it. We have music once a week and really enjoy 'Attention Autism' time with Jenny.

We have been reading different texts in class. We have enjoyed reading Funny Bones, searching for and building skeletons, as well as finding and matching parts of our bodies.

Owl Babies was fun to read, learning about the different owls and creating our own using paper plates and coloured paper.

Over Halloween we read Room on the Broom. We talked about different animals and designed our own witches hat.

For Christmas we focused on the story Beauty and the Beast and were able to go and see the pantomime in the school hall.

We have looked at different celebrations and festivals this Term. Celebrating Diwali by making Diva lamps out of paper plates. Celebrating Bonfire night by making firework pictures using salt, glue and food colouring. We also used toilet rolls and paint and lots of glitter! We celebrated Halloween by doing lots of cooking. We made strawberry ghosts and spider web pizzas. We also had our own pumpkin that we were able to explore and cut open. We made paper plate snowmen and wreaths using glitter and pom poms.
